

KENTUCKY ACADEMY OF PHYSICIAN ASSISTANTS

PA Week – October 6-12, 2022

Thank you for requesting a media kit to help promote PA Week in Kentucky.

Physician Assistants' Week (PA Week) is officially October 6th through October 12th and we truly appreciate you joining us this week in celebration.

As you know PA Week is a great time to promote our profession and educate others about Physician Assistants. This year KAPA has put together a media kit with a variety of posters and flyers aimed at spotlighting the PA profession and celebrating PA Week. Enclosed is your requested kit. Please feel free to post or otherwise distribute these materials at your convenience and discretion.

Because PA Week is celebrated nationally, the American Academy of Physician Assistants (AAPA) also has promotional materials and activities available. Please visit the AAPA website for downloads, scheduled activities, and other various ways to show your support of the PA profession.

www.aapa.org/events/pa-week.

KAPA sincerely hopes that the enclosed promotional materials will further conversations about the PA profession in the state of Kentucky. As Physician Assistants we have so much to be proud of in our profession, so let's take full advantage of this special week and get out there to celebrate and educate!

Kelly Joy, PA-C
2022-2023 President
Kentucky Academy of Physician Assistants
